

State COVID-Operation Snapshot for Alaska

Currently, the State of Alaska does not mandate general use of masks, limit group size, or business operations, but does encourage Alaskans to do their part to limit the spread of COVID-19.

The state does not require the use of masks by the public; however, it is recommended that you wear a mask in public where social distancing is challenging. Private companies and entities, however, can enact their own requirements. Local communities may have more restrictions than the state, [you can view local and borough websites here](#).

Beginning August 11, travelers arriving into Alaska from another state or country must follow new protocols. Travelers must submit a travel declaration and self-isolation plan through the portal and arrive with proof of a qualifying negative COVID-19 test; or follow the work plan that your employer filed with the State of Alaska; or purchase a COVID-19 test for \$250 when you arrive in Alaska, and self-quarantine at your expense until results arrive.
