

State COVID-Operation Snapshot for Delaware

Delaware entered Phase 2 of the economic reopening on June 15 and will delay moving to Phase 3.

Governor Carney issued a modified State of Emergency declaration that requires Delawareans to wear face coverings in public settings, including grocery stores, convenience stores, pharmacies, doctor's offices, and on public transportation.

Businesses must require employees to wear a face covering while working in areas open to the public and in areas where coming within 6 feet of other staff is likely; provide, at the business' expense, face coverings and hand sanitizer for their employees; and deny entry to individuals who do not have a face covering.
