

State COVID-Operation Snapshot for Kansas

Statewide Mask Order: Yes.

Gov. Laura Kelly issued an executive order July 2 requiring face covering in public. It applies to most people over the age of 5. However, a state law passed in June allows Kansas counties to opt out of gubernatorial health directives, and most are not following the mask order.

Statewide Travel Restrictions: Yes.

Travelers from Florida and Arizona must quarantine for 14 days upon arriving in the state

Current Executive Order Status: Reopen Kansas Phase 3

Gov. Kelly announced the state moved to Phase 3 of the Reopening Kansas plan starting June 8. Manufacturing is open with social distancing and safe practice guidelines.

Gov. Kelly had initially imposed a statewide stay in place order on March 28 and exempted from enforcement “essential” businesses identified under the Kansas Essential Functions Framework (KEFF). Companies aren’t required to seek official designation as essential but can email KEFF@ks.gov seeking clarification.
