

# State COVID-Operation Snapshot for Nebraska

Masks are required for both clients and staff at barbershops, salons and other personal-care businesses. They are recommended for restaurant employees and for the general population when in public.

Nebraska is not currently under a stay at home order, only restrictions for mass gatherings which last through as late as May 11 per a “Directed Health Measure” listed below.

A series of local health departments in Nebraska have issued additional Directed Health Measures of their own, with restrictions on mass gatherings but exemptions to allow for “continuity” of business operations.
