

# State COVID-Operation Snapshot for West Virginia

Gov. Jim Justice's July 6 order requires people age 9 and up to wear face coverings in confined indoor spaces when unable to adequately social distance, other than at home and when "actively engaged in the consumption of food and/or beverage (see order below). The quarantine requirement for out-of-state travelers ended May 21.

West Virginia is currently operating under a stay at home order that lasts indefinitely during the state's state of emergency. Gov. Justice first imposed the order on March 23.

For a period, Gov. Justice had imposed additional restrictions in several counties, with just four remaining in effect for Berkeley, Harrison, Jefferson, and Monongalia counties.

West Virginia is also operating under an executive order that directs people who have traveled to West Virginia from hot spots such as New York, Connecticut, Louisiana, Italy or China to quarantine for 14 days if they travel to the state. anyone traveling into West Virginia from a high-risk area to quarantine for 14 days.

On April 27, Gov. Justice issued West Virginia's "West Virginia Strong – The Comeback" Plan for partial reopening, including stages for relaxed restrictions on different business types and sizes.

The Week 1 phase of reopening's will begin on Thursday, April 30. From there, each phase of the reopening process for Weeks 2-6 will begin on Monday of each subsequent week. Case numbers will continue to be monitored throughout the entire reopening process.
